- Diploma (NQF level 6) or bachelor's degree (NQF level 7) in Computer Science, Mathematics, IT, Economics, Statistics, or related field
- Advantageous - Certified Analytics Professional (CAP), Google Data Analytics Professional Certificate, Microsoft Certified: Data Analyst Associate, etc.
- At least 2-5 years' experience in a data analytics role. Experience with financial / investment systems preferred. Data models, database design development, data mining and segmentation techniques
- Experience with reporting packages (Business Objects, etc.), databases (SQL, Postgres SQL, etc.).
- Knowledge of the ETL process and BI tools
- Power BI, Advanced Excel, Microsoft SQL, Postgres SQL, Confluence, Jira, Microsoft Word, Outlook, PowerPoint
- Compliance and regulatory knowledge, specifically NCA Act, POPIA, NCR, PASA, bank regulations, etc.
- Data visualisation, programming and quantitative skills

WHAT YOU WILL DO

Increase revenue and overall company turnover - Responsible for the collections made on key accounts assigned. Identify opportunities for process optimisation and leverage self-service BI tools for enhanced function performance. Identify strategies to reduce costs and increase revenue.

Generate insights and analytics - Look for trends in data to identify potential solutions to address recurring queries. Ensure source data discrepancies are rectified and create strategies to increase collection rates. Generate insights by doing analysis on handovers, collections, failures while looking at possible trends.

Reporting - Collaborate with data teams and the business to design data analysis and reporting solutions. Perform testing to ensure information meets requirements and accurately reflects source data.

Stakeholder and team engagement - Proactively propose improvements to processes and reporting solutions to enhance the analytics offering. Share knowledge and learnings with team. Participate in cross-collaborative projects to drive process improvement and innovation. Verify logic of data extracts and analysis with team members.
